UNREGULATED DC POWER SUPPLIES

DESCRIPTION

IMS unregulated DC power supplies deliver optimum power for top driver performance. The IP402, IP404, IP406 and IP804 can be rack or panel mounted. The IP406 provides both cost and space savings in multiple 40/48 VDC driver applications.

For high power, multiple driver applications using 80 volt drivers, we offer the IP806. This power supply's rugged open framed "L" bracket design is easily panel mounted.

Optional 240 volt DC power supplies are available. Specify when ordering by adding -240 to the part number.
